Waste separation and how to dispose of the waste, and waste collection schedule

This program and schedule only apply to waste generated by ordinary households and residents of Moriguchi City. (Waste generators must dispose of waste generated from their industrial activities on their own.) You can dispose of up to two bags of burnable waste per collection(No maximum number of bags except for burnable waste). Waste that is not correctly separated will not be collected.

Place the refuse at a drop-off location by 9 a.m. on the collection date.

Important points when disposing of waste	Note: For unrecyclable used paper/cloth that is dirty, dispose of it with a label displaying the fact. Note: Soak cigarettes, cigarette lighters, and other flammable objects into water before putting them into the garbage to prevent ignition. Note: You can dispose of up to two bags of burnable waste per collection.	Note: Dispose of items that come with products (straws with beverage cartons, spoons with lunch boxes, etc.) as burnable waste. Note: Do not mix plastic products, such as buckets and toys, with containers and packaging waste.	Note: Dispose of vinyl coated paper and carbon paper as burnable waste. ◆Dispose of used paper/cloth on days when it is collected by neighborhood associations and other entities in your residential area if possible.	Note: Be sure to put used cloth and clothing into a trash bag. Note: Dispose of very dirty items as burnable waste.	Note: Empty spray cans and portable gas cartridges and put them in a separate bag with a label displaying the word "DANGER" (Creating a hole on the cans and cartridges is not required.) Note: Dispose of ittokan, or about 18-liter oil cans, as miscellaneous trash. Note: Dispose of crockery as bulky waste. Put glass bottles and waste glass into a trash bag for safety.	Note: Remove the caps and labels and dispose of only the PET plastic bottles. *Caps and labels are classified as plastic containers and packaging.
